Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless —

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by US 5469278 A.

Per claim 1, 278 teaches a panel for liquid crystal display comprising: a plurality of pixel areas arranged in a matrix [13]; and a scattering layer containing fillers for inducing light scattering indicated as haze value, wherein the fillers are distributed in a concentration having different values in the pixel areas and in border areas located between the pixel areas [see 16a and 16b].

Per claim 2, 278 teaches the panel of claim 1, wherein the concentration of the fillers in the border areas is lower than that in the pixel areas [the filler being the area surrounding the particle].

Allowable Subject Matter

Claims 3-11 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record teaches a polarization plate for liquid crystal display, the polarization plate comprising: an upper protective film including fillers for inducing light scattering indicated as haze value, an analyzer having a first surface, on which the upper protective film is attached, and a second surface facing the first surface; and a lower protective film attached to the second surface of the analyzer. The prior art of record does not anticipate nor suggest, the fillers distributed in a concentration different between in pixel areas and in border areas located between the pixel areas.

The prior art of record teaches a liquid crystal display comprising: a first and a second panels facing each other and having pixel areas arranged in a matrix; a liquid

crystal layer interposed between the first panel and the second panel; and containing fillers for inducing light scattering as haze value, the fillers in a concentration different between in the pixel areas and in border areas located between the pixel areas. The prior art of record does not anticipated nor suggest the scattering layer formed on an outer surface of at least one of the first and the second panels.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James A. Dudek whose telephone number is 571-272-2290. The examiner can normally be reached on 9:00-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Nelms can be reached on 571-272-1787. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
